

EzTrac

Real Time Tyre Monitoring

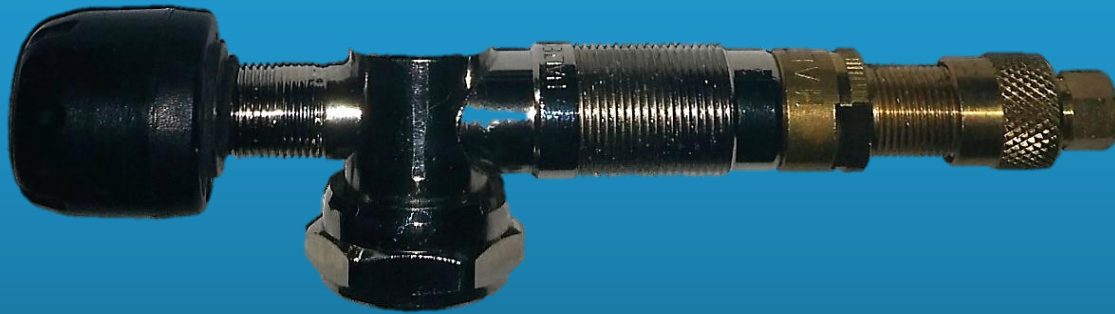

Benefits of EzTrac

- **Quick Return On Investment**
 - Improved safety for tyre fitters and equipment operators
 - Reduced equipment downtime
 - Lower costs
- **Improved Safety**
 - Reduced exposure for tyre fitters through reduced requirement for physical inspections and remote pressure monitoring during tyre maintenance
 - Prevent tyre fires through real time monitoring and reporting of tyre temperatures
 - Reduce risk of tyre damage due to over or under inflation
 - Manage risk associated with lightning strikes through real time monitoring and reporting of tyre pressure
- **Reduced Downtime**
 - Accurate measurement of tyre pressure and temperature
 - High reliability / low failure rate
 - Non-intrusive and convenient installation
- **Lower Costs**
 - Flexible communications protocols
 - Flexible reporting platforms
 - Competitive pricing

Features of EzTrac

Parameter	Capability	Option
Inflation Pressure	✓	Standard
Temperature	✓ Y	Standard
Wireless	✓	WiFi (802.11), 4G
Notifications	✓ Y Email, Text	Standard
Security	✓	Hosted Local Server
GPS	✓ Y	Optional
Push data to Internet Portal	✓ Y	Multiple Options
External Sensors	✓ Y	Internal Optional
12mth Warranty	✓ y	Standard

EzTrac Integrated Sensor

- Integrated valving and sensor assembly
- Ez Installation
- Ez Replacement
- Ez Inspection
- Reduce risk with fitting

EzTrac Data Receiver

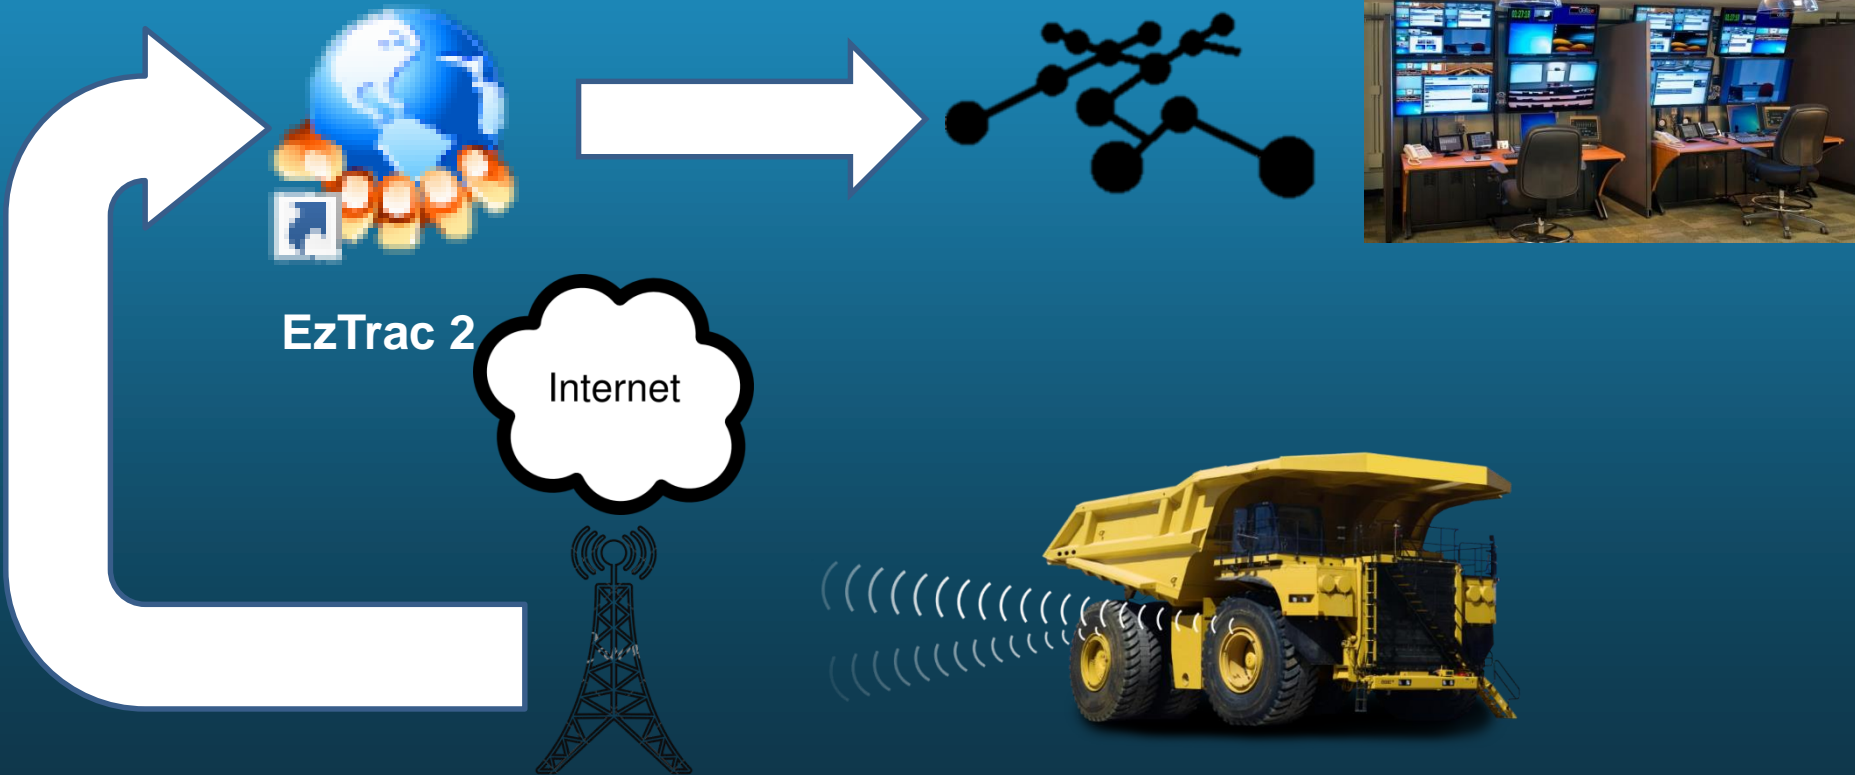

- Compact
- IP65
- Ez Installation

Report Integration

Various Reporting Platform Options

- EzTrac 2 (Standard/local)
- Push data to Fleet Management Platform
- Internet Portal (Option)
